DESCRIPTIVE PRICE LIST

NEWTON NURSERIES

NEWTON, MISS.

J. R. WOODHAM'S SON, Prop.

FALL OF 1932—SPRING OF 1933

Due to the terrible depression we are this season issuing a descriptive price list instead of an expensive catalogue. This will enable us to pass our product on to our many customers much cheaper. Catalogues cost money, and we feel that we should reduce our price for the time being and pass this saving on to our customers.

NOTICE—Balled and burlapped means that plants will be lifted with ball of earth and roots burlapped. Quite a number of plants cannot be lifted otherwise. Bareroot means that plants will be lifted without ball of earth and roots packed in damp moss.

CONIFEROUS EVERGREENS

(Thuja the Arborvitae)

Thuja Aurea Nana (Berckman's Golden) (Dwarf Golden Arborvitae)	
2½-3½ feet extra heavy balled and burlapped.....	\$ 2.50

LIGUSTRUM THE PRIVETS

We offer nothing but grafted specimens in ligustrum's, and our plants are not to be confused with the common ligustrum's offered on the market which are usually grown from cuttings or seed. Our plants are grafted on stocks that are resistant from root-knot.

Ligustrum Japonicum (Japanese Privet) (green and a very strong grower)	
4-5 feet, extra heavy balled and burlapped.....	.75
2-3 feet, bare-root mailing size.....	.40

NEWTON NURSERIES

NEWTON, MISS.

REDUCTION IN PRICES

Please note on January 1st, 1933 we have cut the price on Concord and Niagara Grapes vines to 15c each, 6 vines for 75c, 12 vines \$1.50. These are all strong one year vines and will be Post-Paid.

ROSE BUSHES

We have also cut the price on all roses to 40c each, 3 bushes for \$1.00. \$4.00 per dozen. All Post-Paid. These are all strong two year plants, field grown, budded and grafted on strong roots, and will bloom well the first season. These bushes are not to be confused with the common bushes offered on the market.

Marechal Niel (N. Climber)—Perhaps the most famous and most widely known Rose grown in the South. The flowers are a wonderful shade of clear deep yellow.

Reine Marie Henrietta (T. Climber)—Holds its place as the finest red climber that we know. The buds are cherry-red, large and pointed, and the large, open flowers are no less beautiful.

Climbing Kaiserin—Pure white long pointed buds. A fine monthly bloomer, one of the most beautiful white roses we grow, inclined to revert back to bush form in some soils.

Bush Rose Are All Monthly Bloomers.

Pink Radiance—A bright and even shade of pink. Beautiful buds opening into tulip shaped bloom on long, graceful stems. Beautiful waxy foliage.

Red Radiance—A bright, cheerful and even shade of pure red. Wonderful buds opening into a tulip shaped blossom on long, graceful stems. One of the best in every way; keeps longer cut than any other rose.

Paul Neyron (H. P. Bush)—Largest flowering rose of its color in our list. It is a beautiful shade of dark rose-pink. The flowers are produced on long stems.

Columbia—Enormous bloom carried on long, stiff stem. Its color is a clear pink, deepening as it opens to a glowing pink.

Bessie Brown—Large, full; double flowers or pure white flushed pink near center.

Etoile de France—Strong, upright grower with bronze-green foliage which is not subject to insect pests. An almost constant bloomer, producing large, full, cupformed flowers of velvety crimson.

K. A. Victoria—One of the best white Roses. Glorious, full double flowers of waxy-white with slightest tinge of cream in late fall.

Snow Queen (Frau Karl Druschki)—Sometimes called White American Beauty. Extra large blooms of snowy-white, waxy in appearance. Beautiful in bud or full blossom.

Luxemburg—Rich yellow, orange center; one of the most beautiful roses. Much stronger grower than most yellow roses. The Luxemburg has become one of the most popular roses. One or more should be included in every collection.

Talisman—One of the new sensations in roses. Blend of colors indescribable—combining, gold, apricot, yellow, pink, old rose, or deep rose pink. Colors brighten and get richer on opening.

Ligustrum Lucidum (Glossy Privet) (Common Lucidum)	
3-4 feet extra heavy balled and burlapped.....	.75
18-24 inch, mailing size bareroot.....	.40

SHADE TREES

Lombardy Poplar (A very tall grower)	
10-12 feet, extra large bareroot.....	1.50
8-10 feet, extra bareroot.....	1.00
6-8 feet, heavy bareroot.....	.75
4-6 feet, medium bareroot.....	.35

ROSE BUSHES

All roses are grafted that are offered by us which makes them much stronger and they are not to be confused with plants grown from cuttings which always sell much cheaper. The following are our list of varieties which we recommend as being the best.

Marechal Niel (N. Climber, Yellow) Reine Marie Henrietta (T. Climber, Red) Climbing Kaiserin (T. Climber, White) Paul Neyron (H. P. Bush, Pink) Pink Radiance (Bush, Pink) Red Radiance (Bush, Red) Shell Pink Radiance (Bush, Pink) Luxembourg (Bush, Yellow) Etoile de France (Bush, Crimson Red) Columbia (Bush, Pink) Bessie Brown (Bush, White flushed with pink in center) Killarney (Bush, H. T. Pink) Snow Queen, known by many as Frau Karl Druschki or white American Beauty (Bush, color white)

All roses are the same price which as follows:

Price each50
Price per dozen	5.00

Address all mail and make all checks payable to Newton Nurseries, Newton, Miss.
